

Single source for all your home theater needs.

How is Cine Designs different from most other home theater companies?

1. Professional expertise with in-depth knowledge of Home Theater technologies and trends.
2. We offer quality equipments which are reasonably priced, and keep our margin low. These equipments offer the best value with exceptional performance saving you hundreds or thousands of dollars.
3. Theaters built by Cine Designs are optimized for best audio performance by acoustically treating walls of the room thereby eliminating echo and producing stunningly clear and rich audio which can rival many commercial theaters.
4. Video equipments will be adjusted for optimum settings producing beautiful true-to-life picture.
5. Highly adaptable to work within your budget and your unique requirements.

Please see next page for Home Theater packages we offer.
